

AHMED WALED

Data Science & AI Specialist

Cairo, Egypt | +20 1554793927 | aw915008@gmail.com

[LinkedIn](#) | [Github](#) | [Portofolio](#)

SUMMARY

Computer Science student specializing in Machine Learning and Data Science with hands-on experience building end-to-end data-driven systems. Proficient in Python, SQL, and ML frameworks with a track record of delivering predictive models achieving 85%+ accuracy across healthcare and retail domains. Experienced in full data pipelines — from web scraping and database design to model deployment and interactive frontends.

EDUCATION

B.Sc. Computer Science — Machine Learning Department

2023 - 2027

MNU University — Faculty of Computer and Artificial Intelligence

Data Science and AI Diploma

Aug 2025 - Jun 2026

AMIT Learning

EXPERIENCE

Data Science & AI Trainee

Aug 2025 - Jun 2026

AMIT Learning

- Developed a Patient Management System in Python using OOP to track patient visits and manage bookings
- Performed data analysis across multiple datasets, identifying inconsistencies and extracting actionable trends
- Implemented web scraping workflows and API integrations to gather and enrich datasets from public sources
- Built and managed MongoDB databases for storing patient records, booking data, and external medical information
- Applied Pandas, Matplotlib, BeautifulSoup, Requests, and PyMongo across data cleaning, visualization, and storage

Front-End Development Trainee

Jan 2025 - May 2025

- Built responsive web pages and interactive user interfaces using HTML, CSS, and JavaScript

PROJECTS

AI-Based Disease Analysis & Prediction System

Python, MongoDB, Scikit-learn, TensorFlow, Streamlit, REST APIs, BeautifulSoup

- Engineered an end-to-end disease prediction system that predicts diseases in real-time from user-input symptoms using machine learning and deep learning models
- Scraped and aggregated medical data from multiple online sources using BeautifulSoup; stored structured and unstructured data in MongoDB
- Built data preprocessing and feature engineering pipelines to clean raw medical data and improve prediction accuracy
- Developed an interactive Streamlit frontend enabling non-technical users to receive disease predictions, symptom analysis, and health recommendations
- Integrated external medical APIs to enrich the dataset and improve diagnostic coverage

Retail Customer & Sales Analytics System

SQL Server, MongoDB, Python, Scikit-learn, REST APIs, Jupyter Notebook

- Designed a normalized SQL Server database (6 tables) managing 50,000+ transactions, 5,000 customers, and 500 products; denormalized into MongoDB for analytics
- Performed customer segmentation using KMeans clustering and trained supervised classification models achieving 85%+ accuracy
- Built sentiment analysis models on customer reviews and developed regression models for branch profit prediction and demand forecasting
- Architected a microservices system with dedicated Model APIs, a Gateway API with rate limiting, and a reporting notebook application

Sales Analysis & Prediction System

SQL, Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

- Designed and generated a comprehensive sales dataset using SQL; performed end-to-end data preprocessing and transformation
- Conducted exploratory data analysis to identify seasonal trends, customer behavior patterns, and key sales drivers
- Built machine learning models to forecast future sales and created interactive dashboards to visualize trends and KPIs

TECHNICAL SKILLS

Languages:	Python, SQL, Java, JavaScript, HTML/CSS
Data Science & ML:	Scikit-learn, TensorFlow, PyTorch, Pandas, NumPy, Matplotlib, Seaborn, Streamlit
Databases:	MongoDB, SQL Server, PyMongo, Database Design & Normalization
Web & Tools:	REST APIs, Web Scraping (BeautifulSoup, Selenium), React, TypeScript, Git
Data Analysis:	Microsoft Excel (Advanced Formulas, Pivot Tables, VLOOKUP), Power BI, Tableau, DAX, Power Query, Data Cleaning, Data Visualization, Statistical Analysis, KPI Dashboards

CERTIFICATIONS

- Data Science & AI Diploma – AMIT (2025-2026)
- Front-End Developer Course (2023-2025)

LANGUAGES

- Arabic – Native
- English – B1+
